

Our Company

Established in 1983, minority-owned LoJac, LLC provides high quality hydro excavation and pipe camera services to the construction industry throughout the Southeast. Seasoned by years of experience in construction, we offer excellent services to our customers by providing timely, safe and superior work. From the simple to the complex, our philosophy never changes; do it right, do it safe and do it timely.

Only the highest quality of training, equipment and materials is used to meet our goal of complete customer satisfaction throughout our service regions.

BRINGING SAFETY
AND QUALITY
TO THE SUB-SURFACE
UTILITY WORLD

www.lojac.com

Our Services

Integrating innovative technologies with decades of hands-on experience, LoJac offers a broad menu of sub-surface utility support services. Here are just a few:

Hydro Excavation

LoJac's hydrovac technology uses extremely accurate high-pressure air or water plus an air vacuum to break up and remove soil and other underground debris.

Hydro-Jetting/Flushing

Professional-plumbing-approved method for cleaning clogged or slow sewage lines with high-pressure water blasts.

CCTV

Using push rod and robotic crawler cameras, we can help you inspect, document and verify your pipes, ducts, and storm drains with certified PACP reporting, if required.

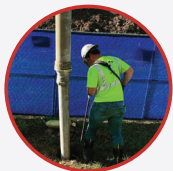

Stormwater Services

Helping you conduct mandatory post-construction and annual inspections to meet all regulatory and best-practice standards.

Emergency Response

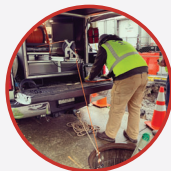

When the unexpected happens, just call us and we'll send our expert teams and tough equipment in for safe and immediate inspection, clean-up and restoration.

Why Choose Us?

In a word: **TRUST**. Solving problems is what we do. From making your site regulatory-compliant, to removing blockages and debris, to documenting your maintenance inspections, we've got the experience and equipment to get your job done right.

Above-all Safety – Protecting your site, your personnel and our own teams gets top-priority from our entire company. When it comes to safety, no shortcuts are allowed.

Proven Expertise – For nearly 40 years, we've been operating successfully on construction turf. We know our way around – and through – any situation.

Superior Quality – From powerful, well-outfitted trucks to the highest quality CCTV systems, you'll get the best technology and materials available for your project.

Responsive – Whether you're facing an emergency or just trying to meet your contract deadlines, we'll get a team to your site fast and ready to work.
