

Dear Colleague:

A note of thanks for stopping by the Belden booth at the 2016 DistribuTECH event. We appreciated the inquiry and your interest in our solutions for critical infrastructure within power and electric utilities, cyber-physical security, transportation and energy. For those of you who indicated, our sales engineers will be following up very soon to explore how Belden can help you find the solution that works for you.

A recap on booth activity:

- The introduction of a unique portfolio of powerful and integrated solutions within the new Industrial Cybersecurity business unit, all focused on helping you secure your ICS/SCADA environment
- Belden delivers the visibility, reliability and resilience industrial customers require through:
 - **Integrated solutions** - each designed and integrated to fit the specialized industrial requirements you require – through any or all of [GarrettCom](#), [Tofino](#), [Tripwire](#), [Hirschmann](#) offerings
 - **Ruggedized industrial networking and security equipment** for harsh outdoor conditions
 - **Wireless, legacy and serial support** for gradual transition to IP communications
 - **Certified with Tripwire** for industrial cybersecurity

For those of you not able to pick up your copy of our new whitepaper [Guide to Wireless Communication in Smart Grid Deployments](#) at the booth, please feel free to download here.

Watch for our upcoming new Tofino for Energy release, new industrial protocol protection and DPI for IEC-60870-5-104 and DNP3 over TCP.

For more information on Belden's entire product portfolio, visit our [website](#).

Best Regards,

Belden
